

## MURDER OF 2 POLICE CHARGED TO 2 YOUTHS

### MEMBERS OF BANDIT GANG WORKED IN ST. PAUL

SIGNED STATEMENT GIVEN BY  
VIRGIL BAKER, A CON-  
FEDERATE

DETAILS MOVEMENTS OF BAND  
BEFORE AND AFTER SHOOT-  
ING OF ST. PAUL POLICE

St. Paul, March 5.—(UP)—The brutal murder of two patrolmen here February 25, was charged to Merrill Beards and L. P. Oviatt, members of the bandit gang captured near Menominee, Wis., in a signed statement by Virgil Baker, a confederate, made to police here today.

The statement was lengthy, detailing movements of the band before and after the two policemen were shot. Baker said he and Harold Pratt left Beards and Oviatt after perpetrating a number of holdups about one o'clock the morning of the double murder. The shooting took place about four o'clock.

"I was in a shooting scrape with a couple cops and left them lying in the street," Beards told Baker the following day, according to the statement. Subsequent conversations in which the murders were referred to were also given in detail.

Baker, Oviatt and Beards were arrested after ditching the stolen automobile in which they fled from the city. They confessed a number of robberies but denied any knowledge of the murders. At first police doubted connection of the youths with the slayings. Pratt was implicated by his companions after questioning but only in the holdups.

Baker's statement corroborates testimony given police by Edward J. Fay, Minneapolis, that two members of the bandit gang boasted to him shortly after the murder that they "just bumped off a couple of cops" and exhibited a revolver with several exploded cartridges to substantiate the statement.

Immediately after Baker made the statement by his own request, Oviatt and Beards were put to severe examination. All of the quartet involved are mere youths. Beards and Oviatt are 19 and 22. Baker, the oldest, is 26. All live in or near Minneapolis.

### BREAK TRAIL TO REACH THEIR SICK FATHER

Menominee, Wis., March 5.—(UP)—With a crew of men and two automobiles Judge Barstow and Edward Barstow of this city were expected to reach Fox, 32 miles north of here with medical aid for their father, Adolph Barstow, 79, who is seriously ill with pleurisy.

Snow driven in off Green Bay by gales of the last week has made the roads of this section almost impassable and the men were experiencing much difficulty. Attempts to fly the distance by airplane were given up in view of the strong gales.

The elder Barstow has been living here practically all winter and it was only a couple of weeks ago that he insisted upon returning to the farm near Fox. The two sons were notified by telephone of their father's condition and immediately started preparations for the trip carrying a doctor and medical supplies.

Menominee, Wis., March 5.—An expedition, which set out from here yesterday with a physician and medical supplies for Adolph Barstow, 79, ill with pleurisy at his farm near Fox, 32 miles north of here, was on its way back to Menominee, carrying the elder Barstow, whose condition is much improved.

Miss Betty Barstow, daughter of the aged man told the United Press today that she had received word from her brothers, Judge George Barstow and Edward Barstow, who are leading the expedition, that they had reached the farm and were starting back to this city with their father in an enclosed and heated car.

The expedition, which started out yesterday, consisted of two snowmobiles, a tractor and several men and shovels together with a physician and supplies.

According to Miss Barstow, the expedition is expected to return to this city some time today.

### KAUFMAN PAINTS VIVID PICTURE OF N. W. PROSPERITY

Minot, N. D., March 5.—(UP)—Herbert Kaufman, noted editor and lecturer, last night, in an address before the Minot Association of Commerce told his audience that the region between Lake Michigan and the Rocky Mountains was about to enjoy its most prosperous days.

Kaufman painted an optimistic picture for the entire northwest and summarized the situation when he said: "Necessity is your unescapable customer. Everyone must eat and wear clothing and use iron and copper and other minerals which are produced in the states in this land from the twin cities to the Pacific coast."

### CHRISTIANSON RESPONSIBLE FOR OUTCOME

PROSECUTION OF MRS. MAYME  
HODGE IN HIS HANDS, SAYS  
COUNTY ATTY. OLSON

LATTER RILED BECAUSE GOVERNOR  
DIRECTED ATTORNEY  
GEN. TO PROBE MATTER

Minneapolis, March 5.—(UP)—Governor Theodore Christianson is responsible for the outcome of the prosecution of Mrs. Mayme Hodge, who is held in LaCrosse, Wis., in connection with the strange death of Knute B. Birkeland, according to an announcement made late yesterday by County Attorney Floyd B. Olson.

Olson, apparently riled because of the action of the governor, who yesterday directed the attorney general's office to take charge of the investigation, said, "If the governor has taken charge of the matter the entire responsibility for its success or failure is his."

Governor Christianson explained his motive for placing the case in the office of the attorney general was a petition from the members of Birkeland's church asking for the investigation.

The attorney general's office will be represented at the hearing on extradition before Governor Blaine of Wisconsin next Friday.

Mrs. Hodge now in the county jail at LaCrosse, firmly maintains she did not know Birkeland and that at the time of his death she was living in Wisconsin.

### Dale A. Platman, Schall Campaign Worker, Makes Charges

Minneapolis, March 5.—(UP)—Charges that authorized workers for Senator Thomas Schall in his campaign against Magnus Johnson at the last election solicited money from indicted bootleggers were made here today by Dale A. Platman, a Schall campaign orator.

A signed affidavit embodying the Platman's accusations was sent to the senate sub committee investigating Johnson's demand that Schall be unseated in Washington.

Platman said the "tainted money" was solicited by A. N. Jacobs, whose conviction for libel of Johnson was upheld by the supreme court last week. Jacobs was authorized by Schall to open headquarters at a hotel here to "solicit funds in any manner he saw fit to employ," according to the affidavit.

The statement further charged that indicted bootleggers were promised protection and immunity in return for campaign donations. This is the ground upon which Johnson demanded an investigation of Schall's election.

Washington, March 5.—Donald Hughes, counsel for Magnus Johnson in his contest to unseat Senator Schall, charged before the senate election sub committee this afternoon that Mayor E. Leach of Minneapolis was the leader of the "Minneapolis underworld."

Leach is at present candidate for governor of Minnesota.

Hughes' accusation followed reading of a telegram from three Minneapolis detectives assailing the character of Gale Phlagman, summoned to appear before the committee next Monday to testify against Schall.

### STOCK MARKET UPWARD TREND IS SURPRISING

LEAVES 'WHAT NEXT' GUESSERS  
IN NEW YORK WITHOUT UNI-  
FORMITY OF OPINION

SOME BELIEVE 'SUPPORT STOCK'  
BOUGHT WILL SOON BE PUT  
ON SALE

New York, March 5.—(UP)—The surprising character of yesterday's upward stock exchange market has left the "what next" guessers without uniformity of opinion.

Consensus taken among leading brokers and bankers, however, points to two well defined beliefs as regards the immediate future of the market. One of these perhaps most frequently heard is that the market obviously was supported yesterday and that this "support" stock, bought by huge financial interests to steady the exchange, soon will be ready for sale.

If this view is correct there likely will occur what Wall Street calls a "secondary reaction" with stocks tumbling once more, many followers of the market say.

The second commonly held opinion is that many gilt edged stocks have been driven during the last three weeks to prices where they are actually bargains and that a further uprush may be expected when spring business begins in all lines. Systematic and concerted support was in evidence throughout yesterday's session. Although sales were more than 1,000,000 below those of Wednesday totalling about 2,700,000 prices swung upward at a greater rate than they had topped the day previously. The advance in average price of stocks was near 5 points.

New York, March 5.—Stocks continued upward in opening trading of the stock exchange today.

A wealth of overnight buying orders had accumulated and yesterday's uprush, which came in direct contrast to the markets of previous days was still in evidence throughout most classes of stocks.

Speculators and investors apparently had regained their confidence and there were many evidences of banking support as stocks swept forward to accustomed levels.

Most of the early gains were fractional in nature, but a few stocks, which recently have been pounded by bearish interests, went up more than a point. Allied Chemical was up 2 1/2 at 122 1/2 and Chrysler was up 1 1/2 at 44 1/2.

The railroads affected in the recent veto of the Van Sweringen merger, gained considerably in early dealings. Nickel Plate advanced 5 points to 140, Pere Marquette was up 2 1/2 at 80 and Erie was up fractionally.

American Can was a feature of the opening transactions. Its sale was at 317 1/2 up 8 1/2 from the last sale of yesterday.

Business during the first hour was only slightly less brisk than yesterday. Up to 11 A. M. 719,100 shares had changed hands against 739,800 for yesterday's first hour.

On the bond market sales were more than 1,000,000 less in the first hour today than yesterday. Sales totalled \$3,333,000 up to 11 A. M.

As the market went into its second hour, there was a recession on prices of industrial stocks. General Electric dropped seven points, American Can lost 6 1/2 of its early gains and some of the motors dropped slightly. Trading continued brisk.

Sales up to noon totalled 1,143,400 shares, a rate which if maintained would mean another 3,000,000 share day but still about 200,000 shares less than yesterday.

On the bond market trading was livelier during the second hour and by noon \$5,472,000 in securities had changed hands, against \$6,996,000 yesterday.

### BANDIT GANG ROBS HARVESTER CO. OF \$90,000

SENDS EMPLOYEES SCURRYING TO  
COVER UNDER BLAZE OF  
RIFLE FIRE

SCOOPED UP TRACTOR WORKS  
PAYROLL AT CHICAGO AND  
ESCAPES

Chicago, March 5.—(UP)—A bandit gang raided the tractor works of the International Harvester Company this afternoon, sent a score of employees scurrying to cover under a blaze of rifle fire, scooped up the company's payroll of approximately \$90,000 and made their escape in two automobiles.

Employees were quick to recover their nerve and the fleeing bandits were showered with bullets from windows of the plant.

John B. Daly, auditor; Frank Johnson, cashier, and Thayer Kennedy, a secretary, were in direct line of the bandits' fire as they smashed their way through the front door.

Other employees said it was miraculous that none of the three were wounded, as more than 30 shots were fired almost directly at them. Kennedy was the first of employees able to give a coherent story of the robbery. He related his experience as follows:

"The payroll had just been delivered. Daly and Johnson had taken it into the big glass cage, preparatory to paying the men off.

"Without a moment's warning, the gang swarmed in the front door. From outside we heard a shot and then several more. We found out later these shots came from Joseph Gibbons, one of our watchmen who was firing at the two sentries the bandits had left outside.

"The bandits who had come in thought the firing was in their direction, however, and so they let go with rifles, revolvers and a sawed-off shot gun.

"They were aiming right at me and so I ducked under a desk. I saw three girls faint and the others dropped to the floor to hide."

### PROFESSIONAL TRADERS BLAMED FOR MARKET DROP

Washington, March 5.—(UP)—The dizzy drop of the New York stock market is due to the manipulation of professional traders and will have no effect upon prosperity of banks and business houses, Chairman Smoot of the senate finance committee, who usually expresses the view of the administration when he speaks upon financial matters declared late yesterday.

"The bear market," he said, "does not touch the fundamentals underlying the business situation.

"Such slumps are usually caused by excessive speculation and the result is an easing up where there is excess or where prices are running to the extreme.

"Reactions usually go further and then swing upward to a point higher than before the break.

"Even where there is growing prosperity there are setbacks like this, but this one is more extreme than usual," Mellon said.

### LONG LEGAL TRAIL MAY RUN TO THE GALLOWES

ROBERT SCOTT MAY BE TRIED  
FOR MURDER OF JOSEPH  
MAURER

RUSSELL, THE OTHER BROTHER,  
CHARGED ROBERT DID THE  
KILLING

By MAX BUCKINGHAM  
(United Press Staff Correspondent)

Chicago, March 5.—The second of the Scott boys, former Canadian millionaires, today starts along the long legal trail, which prosecutors hope will end at the gallows.

Robert Scott, who disappeared shortly after the murder of Joseph Maurer in a drug store holdup, is to be taken into court where state's attorneys will ask reinstatement of an old indictment which charges Robert and his brother Russell with the murder.

If this indictment is reinstated, the state will move for speedy court action, something in about 10 days.

This second one of the Scott boys is the one who caused so much trouble and so many headlines throughout the country.

Russell, the older brother, was arrested shortly after the murder and sentenced to hang. He insisted his brother Robert did the actual killing, which appeared to be a safe plea for Robert was not to be found.

Three times Russell was prepared to hang and was saved by eleventh hour reprieves. The last time he was taken to the Chester, Ill., state hospital for the insane and is confined there now.

Robert formed the background for two of the reprieves as police in various cities of the country notified Illinois officials that Robert's arrest was imminent. But the police reports were without foundation.

Then Scott, posing as John Redding, was found in the San Quentin Calif. prison. Tell-tale finger prints identified him.

Illinois officials obtained custody of John Redding-Robert Scott and the legal trail started from San Quentin last week.

When he reached here he parried all questions by: "I do not want to answer that question."

One thing which bothers state officials considerably is the fact that Mrs. Helen Billard Conley, one of the best of their state witnesses, is missing. However, State's Attorney Crowe says this will not materially affect his case.

Russell, the other brother, who came so close to hanging, has refused to issue any statement from his new abode in the hospital at Chester.

### TRIAL OF OMAHA ROAD, CHARGED VIOLATING RAIL ACT

Minneapolis, March 5.—(UP)—Trial of the Omaha railroad on a charge of violating the state long and short haul law started in district court here today.

Two witnesses were called by Floyd B. Olson, county attorney, who told of discrimination in rates. Their testimony was not denied by the defense.

Olson then asked for a direct verdict and certification of the case to the supreme court for a ruling to determine whether rates fixed by the interstate commerce commission or by the state railroad and warehouse commission take precedence in intrastate traffic.

### DAMAGE AT PRAGUE HEAVY, 25 WERE KILLED

DETONATION OF THE EXPLOSION  
WAS HEARD FOR 15  
MILES

AREA IN A PANIC AS TREMENDOUS  
ROAR REVERBER-  
ATED

Prague, March 5.—(UP)—Police and military units were mobilized today following the explosion of a munitions transport as it was traversing the city.

Damage in the explosion area was tremendous and early reports indicated that there had been corresponding loss of life.

Subsequently three persons were reported dead and 80 injured. The detonation of the explosive was heard for 15 miles.

An artillery motor transport train composed of five trucks escorted by 50 soldiers, was passing through Tschiller Street, the old historic Roman section of Prague, when a case of explosive fell from one of the trucks. The chest exploded and set off the entire train.

The explosion area was in a panic as the tremendous racket reverberated across the roof tops. Dislodged roof tiles clattered into nearby streets.

### FIRST REPORTS ON THE ACCIDENT

Vienna, March 5.—(UP)—Twenty-five persons were killed in a curbside explosion in Prague today, according to a telephone message from the Czechoslovakian capital.

Thirty soldiers and 100 civilians are reported to have been wounded. Fifteen of the dead were soldiers.

An artillery transport exploded on the main street, according to the telephone message, wrecking many houses and seriously damaging the Imperial Hotel.

### "ANTI-FREE SPEECH" ORDER OF JUDGE

MISSISSIPPI JURIST SEEKS TO  
BAR NEWSPAPER MENTION  
OF TRIAL

By DON H. HIGGINS  
(U. P. Special Correspondent)

Court House, Bay St. Louis, Miss., March 5.—The "anti-free speech" order of Judge Walter A. White in the Jess Favre murder case, was approaching a test here today as the period of jury selecting drew to a close.

A number of correspondents who yesterday were warned by Judge White against publishing any of the trial details, were on hand before court convened today.

The reporters, it was learned, have been ordered to "cover" the trial, despite the court's order.

Favre appeared in the court room unheeded of the interest suddenly shown in his case by the press. An ex-team driver and suspected moonshiner, he was indicted for the murder on February 18, of the government's entomologists, John A. McLeone and W. M. Mingee. Their bodies were found riddled with buckshot near Favre's shanty in the vicinity of Picayune, Miss.

### NECRO HANGED FOR MURDER OF 3 WHITE PEOPLE

Lexington, Ky., March 5.—(UP)—Ed Harris, negro, was hanged here early today for the murder of a white man and his two children, and an attack upon the white man's wife.

Thus was justice delivered to the man, for whose life the Kentucky community clamored so bitterly that troops were called out several weeks ago to prevent a possible lynching.

Mob vengeance was frustrated when the negro was given a brief trial under the shadow of bayonets and rifles. He pleaded guilty to the charge of criminal attack and was sentenced to hang.

Fifteen minutes after the trap was sprung this morning, Harris was pronounced dead and his body cut down.

## LINGERIE

HEDDA HOYT TALKS ABOUT  
THINGS THAT INTEREST THE  
BUSY WOMAN OF 1926

By HEDDA HOYT  
(Written for the United Press)  
New York, March 5.—"Some women wear classy underwear and others don't dare cross their legs" smiled a little saleswoman in a Fifth Avenue shop. This is quite true. The girl with chiffon underthings need not worry about the shortness of her hem for her undergarments match or harmonize with the shade of her frock and she's proud to show them.

Here are a few new lingerie hints picked up from various shops:—  
Creme de chene bloomers—very short ones!—trimmed with tiny chiffon ruffles are the dancing fad of the flappers. Usually they match exactly the color of the frock. A wide fitted band may be used about the waist instead of elastic and many models are made this way.

'Scanties' or one-piece undergarments of confining nature are favorites with women who want svelte lines. This garment is a combination of brassiere, girdle, drawers and garters.

A black lace nightgown posed over flesh-toned chiffon was one of the hits of a recent lingerie show. Bolero nightgowns were also present with yokes made to assimilate boleros and outlined in contrasting colored crepe de chene. The color outlining the bolero is repeated at the hem of the gown. Where the bolero yoke divides in front a bow of ribbon with long streamer ends is used. Other new nighties have slender lines with circular hemlines set on below the knees. Sometimes the circular hem is of contrasting color to the gown and is matched by a deep bodice yoke.

Printed georgettes are generously used for lingerie and will be popular as spring advances. Among the popular solid colors are flesh, Nile green, peach and yellow. Pockets adorn both nightgowns

step-ins and little contrasting colored handkerchiefs are worn in them to give a colorful touch.

## CHARGE CONSPIRACY IN LIQUOR TRAFFIC

St. Paul, March 5.—(UP)—Hearing of nine twin cities men in connection with operations of an alleged alcohol conspiracy were postponed until March 18 by a federal commissioner here today. The postponement was granted to await return of indictments by the federal grand jury in Cleveland.

Five more subpoenas for witnesses to testify at Cleveland were received today. All were for transfer men.

## REV. YLIVISAKER DIED SUDDENLY

Minot, N. D., March 5.—(UP)—The Rev. I. D. Ylivisaker, 58, president of the North Dakota district Lutheran church of America, died suddenly here today from a stroke of paralysis.

He came to America from Norway when an infant with his parents who were pioneer Lutheran missionaries. They settled at Red Lake Falls.

Rev. Ylivisaker, whose home was in Fargo, N. D., is survived by his wife, now in Minneapolis, five children, his mother and a brother and sister. The brother is a minister at Fergus Falls, Minn.

Succeeds H. F. Michael as Head of  
Brainerd Chautauqua, Elected  
Last Night

Interest High For Coming Season,  
Number of Tickets Already  
Sold For Programs

W. H. Gemmell was elected president of the Brainerd Chautauqua association to succeed H. F. Michael, who has served as head for two years, and who recently moved from the city. Mr. Gemmell was the former vice president, and accepted the presidency of the association after the urging of his friends at the

meeting last night.

An interesting and enthusiastic meeting was held at the Chamber of Commerce rooms, those present feeling that the coming season should be one of the best ever held in local chautauqua work.

Wm. Haydon was elected vice president to succeed Mr. Gemmell.

A number of advance sales were reported of tickets for this year's program. The people present were of the opinion that the radio, instead of being a detriment to chautauqua work, as had been feared, is really educating people to the value of this type of program.

## ON BUYING A HOME

BETTER Homes and Gardens, edited by E. T. Meredith, carried a very interesting article on "First Steps in Owning Your Home." To many people, confirmed flat or house renters, the first step is like taking a plunge into "icy water, something to be dreaded.

Harry J. Creviston, the author of the home article, declares that home ownership is not a myth, nor only a dream, to right thinking people, and is proved by the fact that in 1920, 456 families out of every 1,000 in the United States owned the homes in which they lived, and the proportion has undoubtedly increased since then. This does not infer that the homes were clear of indebtedness, but it does mean that the money they would ordinarily pay out for rent is at least purchasing more than a temporary shelter and will some day belong to them.

"The first step in owning a home is a decision to own it. Once the family has decided that we will own our home, and made that decision a definite determination, they are then well started on the way and most of them can do it. Many people will say, 'But we cannot scrape up the first payment.' True, perhaps, it cannot be done overnight—but careful thought and planning, looking ahead over a span of years, will show the way. Home ownership does not generally come from 'scraping up' the first payment, but instead it comes by planning how to accumulate that first payment, then accumulating it systematically and carrying on the same program to finally pay for it in full.

"The better way to go about owning a home today is first of all to calculate how much will be necessary to make the first payment on comfortable quarters, sufficient to care for the needs of the family during the first few years—for a beginning it may not be as large or pretentious as the house you have rented, but it is building a foundation for your ideal home in the future. Having estimated the necessary amount the next step is to figure actual living expenses in the meantime, reducing them to a minimum by eliminating non-essentials, and thus ascertain just how much could be saved regularly toward that first payment. From this you can calculate the date on which that first payment will be ready. Set that date as a goal, then every time you make an expenditure for a non-essential you will realize that you are deliberately postponing that date. The surest way to accomplish the results desired is to have a budget and spend systematically.

"Louis F. Swift once made the statement that the average American does not save successfully until he makes an obligation to save. Your goal of a home can be made an obligation if you will consider it as such and not touch that accumulation for anything else."

## SEARCH FOR SOFTNESS SHORTENS LIVES

GROVE PATTERSON, writing in the Duluth Herald, says the soft life is shortening man's power of resistance.

"Dr. Charles Mayo, renowned surgeon of Rochester, says that people who move south every winter to keep in the sunshine and those who eat imported summer foods in cold weather are likely to be weaklings. Hardy folk need hardy food. The search for softness is shortening our lives.

"It is true physically and it is true every other way. It has become too easy to live without hardship—and hardship is one of the fundamental ingredients of character. Too many of us move just enough to keep in the sunshine."

THE report of the Deep Waterways Board, 1900, referring to a previous incident, stated: "It was then, and is still, openly admitted that the St. Lawrence river is the natural outlet and the line of least resistance for a waterway from the Great Lakes to tidewater."

MANY think Frank O. Lowden, former governor of Illinois, is only a "gentleman" farmer. Far from it, he is a "dirt farmer" with a 4,500 acre farm near Oregon, Illinois. He manages the immense tract as well as several cotton plantations in the south.

THE Prince of Wales should be furnished a mule to ride. They never fall down. Their heels are the only things you have to watch, says Editor Carlisle of the McGregor Pilot Review.

FEW more weeks and spring will be here. Roads generally have been kept in good shape throughout the winter and accordingly the breakup should cause no road blockade.

IN sixteen years the Barnum creamery paid its patrons \$1,389,482.64 for cream and \$522,769.75 for eggs. The average price for butterfat was 41 cents and for eggs 28.7 cents.

TROTSKY has a new dream, that of promulgating a rising of the workers and sending the announcement by radio. There may be too much static in the air to make it successful.

CO-OPERATION in egg-marketing is good business. Co-operation reduces costs, improves quality, standardizes grades and increases profits.

# CHILDISH EMOTIONS TO BE GUAGED

PARTICULARLY THOSE WHICH  
TEND TO DISRUPT NORMAL  
LIFE

500 MOTHERS AND EDUCATORS  
GATHER AT WINDY  
CITY

By MAX BUCKINGHAM  
(United Press Staff Correspondent)  
Chicago, March 5.—Childish emotions, particularly those which tend to disrupt the normal life of every household, will be put under special observation here for the next three days as 500 mothers and educators from over the middle west gather to attend a convention fostered by the Chicago Association for Child Study and Parent Education.

The whys behind Johnny's refusal to run errands and Mary's face-making proclivities will be torn apart and then put together again by a series of speakers who have made child study their life problem. Included among the speakers will be Mrs. Daphne Drake of New York, Margaret Gray Blanton of Minneapolis and Dr. W. W. Charters of the University of Chicago.

And for once in the lives of the youngsters they won't come in for public condemnation and censuring. It is the parents who are to take the verbal chastisements.

The organization has already jarred several mothers out of their usual complacent feeling in the righteousness of mother love by the declaration:

"Some mothers coddle their children too much."

Now the organization is fostering other ideas for the betterment of child upbringing, which differ radically from the back wood-shed idea of yester years.

"Children can be trained to over obedience."

That idea has been brought forward for examination by the mothers and will be touched upon by several of the speakers at today's session of the parent clinic.

"There is a danger of repressing the child by expecting too much and too prompt obedience," Mrs. A. A. Goldsmith said. She will make a report during the meeting concerning the relation of children to the home.

"It is a question of where to draw the line between what to expect of children in the way of obedience and what not to expect."

"Children have some natural inclinations that must be allowed to assert themselves. Therefore we must study the question of where the danger point comes in expecting implicit obedience of a child."

Then too, a report during the meeting is to be made on "Childish Questions."

According to this report it is per-

## First Words Spoken Over Telephone 50 Years Ago

Dr. Bell in 1915  
When he repeated  
Call to Watson  
At opening of the  
Transcontinental Line.

Mr. Watson, come here; I want you."

MARCH 10, 1926, will mark the completion of fifty years of telephony. It is just half a century ago, that the first complete sentence of speech was transmitted over a wire electrically.

"Mr. Watson, come here; I want you"—this was the sentence which came to the ears of the young assistant of Alexander Graham Bell on that historic day while the two, in different rooms on the top floor of a workshop in Boston, were patiently experimenting with what was to become the telephone.

Bell had some months before conceived the principle of the electrical transmission of speech. The twanging of a steel spring which was used in an experiment on the "harmonic telegraph"—an apparatus for transmitting several telegraph messages over the same wire simultaneously—had given the inventor a hint as to the method by which he could produce the "un-

fectly natural for children to ask questions such as:

"What does God look like?"

"Why didn't I see the storm when baby brother came here?"

While they are exasperating to mothers and fathers and some times embarrassing when asked in front of a house full of company, they are perfectly natural, this report will point out. Therefore, there should be none of repressing the child's asking questions as it shows a quest for knowledge.

Leaders of the movement said today they had been advised that a number of women would be here from St. Paul and Minneapolis, that the University of Iowa would be well represented among the educators and that most of the middle western cities would have delegates here. In all 14 states will be represented during the three day session.

Minnesota Cheese Producers Pine Island—The Minnesota Cheese Producers' association met here in annual session with 1,000 farmers in attendance. L. J. Burdick, president of the association, and Professor J. Macklin, Wisconsin university, were the chief speakers.

## BOTH COMPANY AND SCHOOL BOARD ERRED, SAYS COURT

St. Paul, March 5.—(UP)—Suit instituted by the London Guarantee and Accident company against the Duluth Board of Education for additional premiums on a policy for compensation of workmen was remanded for retrial in St. Louis county court by a decision of the state supreme court today.

The company sued for \$2,459 and

was granted \$201. It appealed to the supreme court for larger judgment. The supreme court held that both the company and the school board erred in writing and obtaining the policy.

# JACK DEMPSEY MAY SOON FIGHT TUNNEY

## PERMISSION TO HOLD MATCH IS SOUGHT SOON

TEX RICKARD MAY ALSO STATE  
WHY DEMPSEY-WILLS MATCH  
CANNOT BE HELD

UP TO RICKARD TO GET DEMP-  
SEY OFF NEW YORK IN-  
ELIGIBLE LIST

By HENRY L. FARRELL  
(United Press Staff Correspondent)  
New York, March 5.—Permission to proceed with arrangements for a heavyweight championship match between Jack Dempsey and Gene Tunney is expected to be asked by Tex Rickard at today's meeting of the boxing commission. Through his matchmaker, Jess McMahon, Rickard is expected to give the commission his reasons for knowing that a match between Dempsey and Harry Wills, the recognized challenger, cannot be made.

He also will suggest that Wills has forfeited his standing as the first ranking challenger by signing an agreement with Floyd Fitzsimmons, Chicago promoter, against the orders of the commission and that he has lost prestige by his refusal to accept matches with any capable opponents.

The New York promoter cannot disclose any of his plans concerning the champion, without making himself liable to a forfeiture of his license, but it is reported on good authority that he already has signed Tunney and that Dempsey has given him assurance he will accept terms on a percentage basis as soon as he is able to get square with the commission.

It will be up to Rickard to get Dempsey off the New York ineligible list, but if the commission refuses to change its attitude, he will stage the bout in Jersey City late in August. Dempsey said when he was here a few days ago that he would return to New York next month, after a business trip to Los Angeles, and that he would see what he could do to get himself back in good standing.

Lieb May be Added to Wisconsin Staff

Stock Wants \$12,000 a Year  
Clearwater, Fla.—Milton Stock, veteran Brooklyn infielder, is holding out for \$12,000 a year, almost double what he got last year, it was learned today, he is still in Mobile and has not reported to the training camp.

Joe Dundee May be Rankin Challenger

New York—Joe Dundee, Baltimore, probably will be named the ranking challenger for the welterweight championship at today's meeting of the boxing commission.

## SUCCESS ON ATHLETIC FIELDS IN CYCLES

By HENRY L. FARRELL  
(United Press Sports Editor)  
New York, March 5.—Success on athletic fields seems to run in cycles. There were years when a British golfer could beat an American by merely drawing his clubs from the bag. There were corresponding years when an American pole vaulter could give a European athlete a step-ladder for help and beat him.

But the cycle has turned. American golfers are practically pre-eminent and Charley Hoff, a Norwegian, is showing American vaulters spots in the clouds that they can't reach.

For the past six years, the United States has been the ranking tennis nation of the world. There were no men players in the world who could win from the American ranking players and no teams that could beat American teams.

But now the American tennis superiority is threatened by France and it is almost a foregone conclusion that the Davis Cup, symbolic of the world's team championship, is all booked and tagged for France. The date for shipment is in doubt but it isn't so far removed.

America was invincible on the courts when Bill Tilden and Bill Johnston were in their prime. They are fading now and Rene Lacoste and Gene Borotra are just coming. The Lacoste-Borotra combination may reign just as long as Tilden and Johnston because Vinnie Richards is the only young player to take up the burden here and he, in reality, is a veteran who may have reached his prime.

American youngsters were inspired to take up tennis by the example of Tilden, Johnston and the youthful Richards and French youngsters are certain to turn their attention to the courts when Lacoste and Borotra become national heroes. Nations advance in sports in ratio to the interest shown in them by the kids.

The surprising defeats scored by the French team over Tilden, Richards and Frank Hunter in the national indoor tennis championships may or may not have any bearing on the Davis Cup matches this summer but the brilliance shown by Lacoste and Borotra indicated that the United States will have to devote itself principally to holding off the French stars as long as possible.

## NO BOXING MATCHES ALLOWED IN ILLINOIS

JACK DEMPSEY'S PROPOSED EX-  
HIBITION AT CHICAGO A. A.  
MAY BE BARRED

STORY OF THE EXHIBITION  
LEAKS OUT PREMA-  
TURELY

Chicago, March 5.—(UP)—Somewhere word leaked out that Jack Dempsey, ring idle heavyweight champion, was to give an exhibition at the Chicago Athletic Association today and as a result the ring idle champion may be idle some more. Jack arrived here this morning, accompanied by his wife, Estelle Taylor Dempsey, and his regular retinue of sparring partners, press agents, etc.

The heavyweight champion is to be honor guest at an association luncheon.

The sparring partners, et cetera were not to be honor guests, but it was said that their work would come in afterwards, when Jack donned the gloves to poke some set up on the jaw, solar plexus or some other well known place.

Now Illinois has a rather old law which forbids boxing matches.

Chicago is in Illinois and the Chicago A. C. is in Chicago. So maybe since the story has leaked out, Dempsey's sparring partners will not have to work this evening and the champion may remain idle.

Larson, Nor-Dan. g.  
Ralph Anderson, Meth. g.

Choosing the all star teams for the two divisions of the Sunday school league presents an easy matter in the forward and center choices, with a much greater difficulty for the guard positions. Few guards stood out prominently in either division. This was especially true in the Junior division, where so many of the players followed the hall instead of playing position.

Halvorson, of course, belongs on the first Junior team. His name comes to mind first among all the players. He was almost the whole team in himself, just as Marshall, of the Evangelicals, was about all that the team could boast.

Smith, though small, is put on the first team along with Halvorson, his clever work standing out in many of the games, especially for his dribbling. The guards, Erickson and Clarkson, were the best among the guards in the division, although Kenneth Clausen runs a close second to both. He is placed on the second team, with the other guard of the Lutherans, Antonson. White is put

at center, with Patterson and Kyllo at forward. Patterson's teammate, Anderson, might just as rightly have been placed on the second team, but Patterson is given the edge because his playing, while not quite as hard and aggressive as Anderson's, still seemed to get more results in advancing the ball.

Wade ought to be given a place on one of the teams, but he was over the age limit for the division, and is left out for that reason.

Others of the Junior division who deserve mention besides those already named are Dahl of the Lutherans, Creger, Hohman and Sinclair of the Presbyterians, Mayo of the Methodists, Nelson, Storm and Christian of the Baptists, and Ebinger of the Evangelicals. Some may think it strange to mention Sinclair, who played in but a few games, but in those games he played the best guarding game of any man in the league, especially at taking the ball off the bank boards.

### Intermediate Team

Guin and Satre were the class of the Intermediate league, and to make room for them both, Satre is placed at forward instead of his regular position at center. His teammate, Swanson, is put at the other forward, although Hautala of the Methodists was about equally as good.

Foster is the one guard of both leagues who rightly deserves a place on the first team. In the writer's mind, there is no question of his choice. Stanley, of the Evangelicals is made his running mate.

Barnes, playing with a second rate team, performed as well as any in the league, and deserves first choice on the second team. Hautala and Purdy aer the forwards, with Larson and Ralph Anderson as guards. While Purdy is a center on his team, he is placed at forward because he cannot be held off the team. Other Intermediates who deserve praise for their games are Ray Anderson of the Intermediates, Lawrenz and Viken of the Norwegian-Danish team, Storm of the First Baptists, Swearingen of the Evangelicals, and Paulson of the Swedish Baptists.

## MRS. A. HALLQUIST DIED EARLY TODAY

Resident of Brainerd For 43 Years  
Succumbs After Year of  
Suffering

### FUNERAL MONDAY AFTERNOON

Was Patient Sufferer And Loving  
Mother, Confined to Sick  
Bed Since December

Mrs. August Hallquist, resident of this city for the last 43 years, succumbed to a complication of diseases early today, death coming to relieve her of her suffering at 12:50 o'clock this morning.

Josephine Dahl was born on March 22, 1857, at Trondhjem, Norway. She was confirmed at the Domkirke in that city, one of the most famous churches of north Europe. Her home was but a short distance from the church, and her father assisted in the building of the edifice.

She came directly to Brainerd from Norway in 1883, and has made her home here ever since. In 1885 she was married to August Hallquist, and to them were born four children. One child, a boy, died in infancy. The other three, with their father, survive Mrs. Hallquist. They are Dr. Ralph A. Hallquist, Gertude, who is Mrs. Frank Little, and Alyce, who is Mrs. Oscar Magnuson, of St. Cloud.

Six grandchildren also survive her, Ralph Martin Hallquist, Gladys, Alyce and Franklin Little, and Jack and Jean Magnuson. Besides the relatives already mentioned, she leaves a brother, Martin Dahl, at Astoria, Oregon. Her other brother, Haakon Dahl, preceded her in death last fall at his home in Seattle, Wash.

A patient sufferer during her year of illness, Mrs. Hallquist always bore her lot without complaint. She was a devoted mother and a loving wife, and known to her many friends and neighbors as a splendid woman.

Mrs. Hallquist was a member of the United Order of Foresters and of the Degree of Honor.

The funeral will be held on Monday afternoon at 2:30 o'clock from the residence, 819 South 6th street, which has been her home for the last 35 years. Rev. N. P. Olmsted will officiate.

## CROSSING PLANS SOON CONSIDERED

N. P. Officials Favorable to Construction of Underground Crossing Near Shops

### TWO PLANS PROPOSED

One a Temporary Timber Affair,  
Other Permanent Concrete Viaduct With Roadway

The officials of the Northern Pacific railway are favorable to the construction of an underground crossing to connect Northeast Brainerd with Southeast, according to City Attorney D. H. Fullerton, who last week interviewed R. W. Clark, assistant to President Charles Donnelly of the railway company.

Mr. Clark stated at that time that he will send engineers to Brainerd to work with City Engineer R. T. Campbell in planning details of the work and making estimates of costs.

The proposed crossing will be in line with 12th street following that street from Laurel street to the railway tracks, thence northeast in a diagonal line to the intersection of Gillis Ave. and A street N. E. An approach into the ball grounds is likely, with a cinder path along the west side of the ravine, leading to the north side.

The chief purpose of the crossing would be to furnish a safe transit between the Northeast and Southeast sections of the city. At the present time the nearest safe crossing is the Broadway one.

The proposed plan would also vacate a large part of the high ground near the shop yards along 13th street, and permit of the use of this ground for expansion of the local shop yards. It would work to the advantage of the city and also for the further development of the railway property.

Two plans are being considered. One would call for the construction of a temporary structure of pilings, with a cinder roadway, this to be made permanent later on. The other plan is to build a concrete viaduct at once, with concrete roadway.

The transom above the door was open, but the thieves did not enter through it, as the dust on the ledges was undisturbed. The door was locked when Mrs. Lee went home, but the next morning it was found open. Police are working on the case.

## GUIN LEADS IN SCORING, 67 PTS.

### CENTER OF METHODISTS MAKES 31 GOALS; SATRE HAS 54 POINTS

Guin, the center of the Methodist Intermediate team, leads the division in scoring, with 67 points in 8 games. He made his points on 31 field goals and 5 free throws. Satre, center of the Norwegian-Danish team, is next with 54 points, and Barnes of the Baptist team is third with 50 points.

A peculiar thing about the record is that the three highest scorers in the division are the centers on their respective teams.

The record of all who did some scoring in the league during the season follows:

### Great Lakes Gulls

That gulls and terns inhabiting the Great Lakes region scatter over a wide range during their migratory flights has been indicated by a check-up kept on banded birds, according to William I. Lyon of the Inland Bird Association, who marks more than 3,500 of the fowl yearly in an effort to learn their length of life, mating habits and travelling ability.

### Awaiting an Answer

An epigrammatist says, "If you don't want to be shunned by your friends keep your troubles to yourself." But if you can't ask their sympathy and receive it, what is the use of friends?

STATE OF MINNESOTA,  
DEPARTMENT OF CONSERVATION

### STOCKS RECOVER TODAY

New York, March 5.—(UP)—Continuing Thursday's technical rise, the

recovery took place in today's session, although the rallying was appreciably diminished by the liquidation of stocks bought for the purpose of stemming the violent selling earlier in the week. Offerings of this kind caused good sized recessions from the morning highs reached by General Electric and other concerns. But the main body of stocks maintained a fairly steady tone throughout the session.

This condition in the general list enabled conservative interests to proceed with their conservative operations in special groups. Numerous strong spots were in evidence among the rails including C. and O., Atlantic Coast Line, Louisville and Nashville and Pere Marquette. Oils were the most buoyant group of the industrial category, advances taking place in Associated, Pacific and the Pan American.

Although speculative borrowings were for over the week end, call money was in supply all day at 4½ per cent, helping the market to hold its restored equilibrium in the face of professional attempts to force resumption of the downward movement. The market closed irregular.

## "YES SIR, THIS MEDICINE, KARNAK, IS REMARKABLE"

"Why, If A Man Had Told Me 'Til He Was Black In The Face That It Would Relieve My Troubles Like It Has, I Couldn't Have Believed It," Says Wersal.

"You can just tell the world for me that they don't even begin to claim enough for this Karnak—why, if a man had stood up and told me until he was black in the face that Karnak would end all my troubles like it has, I couldn't have believed it—I tell you this medicine is remarkable."

That's the way Leo Wersal, of 307 6th Ave., N. E. Minneapolis, talks about the great health builder that has put him in such splendid condition.

"I want to tell you I went through some suffering the past five years," says Mr. Wersal. "My appetite

was gone, I had to force myself to eat, and every bite of food caused me so much agony I just dreaded to see meal time come. My stomach would just cramp like a vise, I'd bloat up with gas, and just suffered misery.

"My liver was sluggish, I had to be always taking laxatives for constipation, and my nerves wouldn't let me get any restful sleep. I had dizzy headaches, and was so weak and sluggish it was all I could do to pull through a day's work."

"Well, sir, I don't know how it did it, but two bottles of Karnak has just made a clean sweep of my troubles. They just seemed to leave me overnight. I never had a better appetite, can eat anything, and my stomach is as good as new. I've already gained seven pounds, sleep like a top at night, and feel fine and fit all the time. Believe me, Karnak is a world beater."

Karnak is sold in Brainerd by all good drug stores and by leading druggists in every other town.
